This is a remix of different ideas:

- The basic model is based on the K.U.T. from LarkysPrints

<https://www.thingiverse.com/thing:2843853>

- However, my adaptations are based on the remix by emancarrillo

<https://www.thingiverse.com/thing:3713857>

- The idea of the handle comes from Doenne90

<https://www.thingiverse.com/thing:4046499>

- The basic design for paper cutting is from mishkin2

<https://www.thingiverse.com/thing:5169489>

here you can find 3 different models designed by me.

1. "Body_classic" + "Handle_classic": A simple knife.
2. "Body_cord" + "Handle_cord": A knife with additional notch for cutting thin cords.
3. "Body_paper" + "Handle_paper": A knife with additional notch for cutting paper (+for cutting cords).
